### SOCIAL SOLUTIONS for SUSTAINABLE DEVELOPMENT

Until now the social dimension of resource development has been limited almost solely to the conduct of Social Impact Assessment (SIA)

*QUITE SIMPLY, THE GAME HAS CHANGED. COMPANIES AND PROJECTS WILL BE SUBJECT TO SOCIAL AUDITS ... OF THAT THERE CAN BE NO DOUBT.*

ConGO can:

- Assess the corporate and project social risk
- Identify where the risk is accumulating in the project processes and in the corporate structure
- Develop strategies to reduce and manage the social risk
- Deliver social strategies
- Manage social development associated with projects, to international standards recognised by the ICMM, UN, World Bank Group, IFC, MIGA and other major finance and insurance institutions.

## Commodity Analysts

The CRU Group, established in 1969, provides continual independent, authoritative research on the base metals markets. Our monthly, quarterly, annual reports and ad-hoc research allow you to benefit from critical, objective and authoritative analysis of these metals markets, including:

- Trends and changes in physical demand
- Production and consumption data on the mining and metals industries
- Supply/demand balances
- Prices and premia
- The influence of China
